

AVNISH RAO

Computer Science Graduate, Full-Stack & AI Application Developer

+91 8076555234 • avnishrao1122@gmail.com • linkedin.com/in/avnish-rao-11b342259 • github.com/AvnishRao11

Summary

Computer Science undergraduate with hands-on experience in full-stack web development and AI-powered applications. Skilled in React.js, Node.js, Express.js, MongoDB, SQL, and REST APIs, with a strong foundation in Data Structures, Algorithms, and Software Engineering. Passionate about building scalable products, solving real-world problems, and continuously learning emerging technologies.

Experience

Digifabrix Technologies Pvt. Ltd.

01/2026 – 06/2026

Software Engineer Intern

- Migrated the company's corporate website from HTML/CSS/JavaScript to React.js, improving maintainability and component reusability.
- Developed reusable React components and collaborated with the team to implement new UI features.
- Used Git for version control and participated in code reviews and feature development.

Skills

Programming Languages: C, C++, C#, JavaScript, Python

Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind, SCSS

Backend & Database: Node.js, Express.js, ASP.NET Core MVC, REST APIs, MongoDB, MySQL

Tools: Git, GitHub, Power BI, Postman, VS Code

Computer Science Fundamentals: OOP, DBMS, Operating Systems, Computer Networks, DSA

Data Analysis & Visualization: Microsoft Excel, Power BI, Pandas, NumPy, Matplotlib

Education

JC Bose University of Science and Technology, YMCA, Faridabad

07/2022 – 07/2026

Bachelor of Technology in Electronics and Computer Engineering

CGPA: 7.43/10

Key Achievements

- Completed a certified Full-Stack Web Development course from Apna College.
- Solved 300+ Data Structures and Algorithms problems on LeetCode and GeeksforGeeks.
- Core member of the College Sports Society; contributed to organizing events and representing the college.

Projects

Interview-Master – AI Interview Preparation Platform — React.js, Node.js, MongoDB, Gemini API, JWT

Website: <https://interview-master-steel.vercel.app>

GitHub: <https://github.com/AvnishRao11/Interview-master>

- Developed a full-stack AI-powered interview preparation platform that analyzes resumes and job descriptions to generate personalized interview reports.
- Implemented secure authentication using JWT access tokens, refresh tokens, HTTP-only cookies, and token black-listing.
- Integrated Google Gemini API to generate technical questions, behavioral questions, skill-gap analysis, match scores, and personalized preparation plans.
- Developed RESTful APIs for authentication, interview report generation, report retrieval, and AI-generated PDF resume downloads.
- Implemented automatic JWT refresh using Axios interceptors for seamless session management.
- Deployed the application on Vercel, Render, and MongoDB Atlas.

Codex – DSA Practice Platform

<https://collegeproject-fnkx.onrender.com/>

- Designed and developed a full-stack DSA practice platform using Node.js, Express.js, MongoDB, and JavaScript.
- Implemented JWT-based authentication and secure REST APIs for user management and progress tracking.
- Integrated an AI-based mock interview feature providing technical questions, ratings, and structured feedback.

Browser-Based Image Editor

<https://image-editor-jt90.onrender.com/>

- Developed a browser-based image editor using HTML5 Canvas and JavaScript.
- Implemented real-time image filters including brightness, contrast, blur, hue rotation, and grayscale.
- Created preset-based filters such as Vintage, Cinematic, Warm, and Cool with live preview support.
- Optimized rendering performance by managing canvas state and image loading lifecycle.
